

## **CLARKE TELECOM CENTRALISE WAREHOUSE FACILITIES**

Clarke Telecom has opened a new warehousing and operational facility, which will enable the company to consolidate its stock and equipment holding capacity.

The 32,000 square ft facility, which is located near to Clarke Telecom's operations centre in Chadderton, will allow the company to centrally control and programme the deployment of kit and equipment across each of business's key delivery departments. This will contribute to the faster more efficient roll-out of sites by the construction, electrical, rigging and IC&I teams.

Mobicell security and storage has always been a priority but the new facility takes the company's service to another level with all of its customers' Mobicells being stored under one roof for the first time.
